1:1 Private Consulting.

aoe
ARCHITECTURE OF EXCELLENCE™

Private coaching for those operating at the highest levels of their field — executives, founders, leaders, professional athletes, and others committed to closing the gap between where they are and what they're truly capable of.

Grounded in the **Architecture of Excellence™** framework, each 1:1 engagement is an intensive process that integrates psychological insight, executive coaching, strategy, and skill-building to understand and develop the individual behind the performance. The process begins with a minimum three-month commitment and is informed by Dr. Schulhofer's training as a licensed psychologist, bringing depth to leadership, decision-making, relationships, and well-being while remaining distinctly nonclinical.

INITIAL THREE-MONTH ENGAGEMENT: THE PROCESS

01

Exploration & Assessment

The initial four sessions are typically dedicated to an in-depth exploration of the individual's personal and professional landscape — current circumstances, strengths, challenges, relational dynamics, and aspirations — identifying the recurring patterns and obstacles shaping their performance.

02

Individualized Strategy & Development

Together we establish a targeted strategy for your development. Subsequent sessions integrate psychological insight, executive coaching, strategy, and skill-building to translate insight into meaningful and long-lasting transformation in personal and professional domains.

WRITTEN DEVELOPMENTAL STRATEGY

03

Integration & Continued Development

At the conclusion of the engagement, or another mutually agreed milestone, clients receive a comprehensive report synthesizing key insights, progress, and recommendations for continued growth. The work may continue month to month after the initial three-month minimum commitment period.

COMPREHENSIVE INTEGRATION REPORT

Structure & Investment.

INITIAL ENGAGEMENT

$15,000

Three-month private consulting engagement

- A three-month commitment
- Up to eight hours of individualized consulting per month
- Flexible scheduling by mutual arrangement
- Priority scheduling consideration, subject to availability
- Agreed-upon between-session advisory communication
- An initial structured developmental exploration
- A collaboratively established developmental strategy
- A written summary of developmental priorities and objectives
- Ongoing individualized consulting, strategy, and skill-building
- A comprehensive written integration report at the conclusion of the engagement or another mutually agreed milestone

Payable in advance.

CONTINUED ENGAGEMENT

$5,000 / month

Following the initial three-month engagement, clients may elect to continue on a month-to-month basis, subject to mutual agreement.

- Up to eight hours of individualized consulting per month
- Flexible scheduling by mutual arrangement
- Agreed-upon between-session advisory communication
- Continued strategic support, skill-building, and accountability
- Ongoing refinement of developmental priorities as circumstances evolve

Monthly fees are payable in advance.

The engagement is designed to provide the continuity, depth, and individualized attention necessary for meaningful developmental work.

The eight-hour monthly allocation may be distributed across sessions according to the client's needs and mutual scheduling arrangements.

Continuation allows for sustained developmental work without requiring a further three-month commitment.

The comprehensive written integration report is generally provided at the conclusion of the overall engagement or another mutually agreed milestone, rather than automatically following each monthly renewal.

PROFESSIONAL SCOPE

1:1 Private Consulting is a nonclinical service focused on personal growth, leadership development, and performance enhancement. Although informed by Dr. Schulhofer's training and professional experience as a licensed psychologist, the engagement does not constitute psychotherapy, psychoanalysis, psychological diagnosis, mental health treatment, or crisis services. The consulting relationship does not establish a psychologist-patient relationship.
